

TRIAC DRIVER

Product benefits

- Intelligent electronic constant voltage 1-channel TRIAC driver

Product features

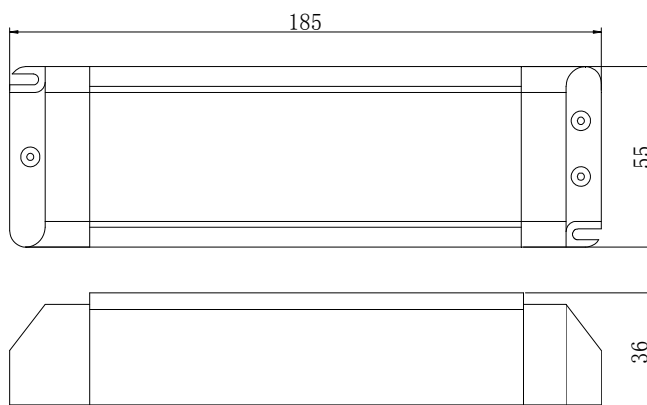

- The dimming curve smooth,no flicker
- Compatible with the most common leading-edge and trailing-edge phase dimmers,such as Lutron, Clipsal,Dynalite.

Technical data

Output	Part No.	THV075-12V	THV075-24V
	Max. Output Current	5.5A	2.8
	Output Voltage range	12VDC	24VDC
Input	Rated Output Power	75W	
	Rated Input Voltage	110-240VAC	
	Rated Input Current	0.7A	
	Frequency	50/60Hz	
Ambient	temperature range	-20 ~ 50°C	
	Type of protection	IP20	
Dimming	Dimming interface	TRIAC	
	Number of control outputs	1	
Other	Dimension (L*W*H)	185*55*36mm	
	Product weight	260 g	

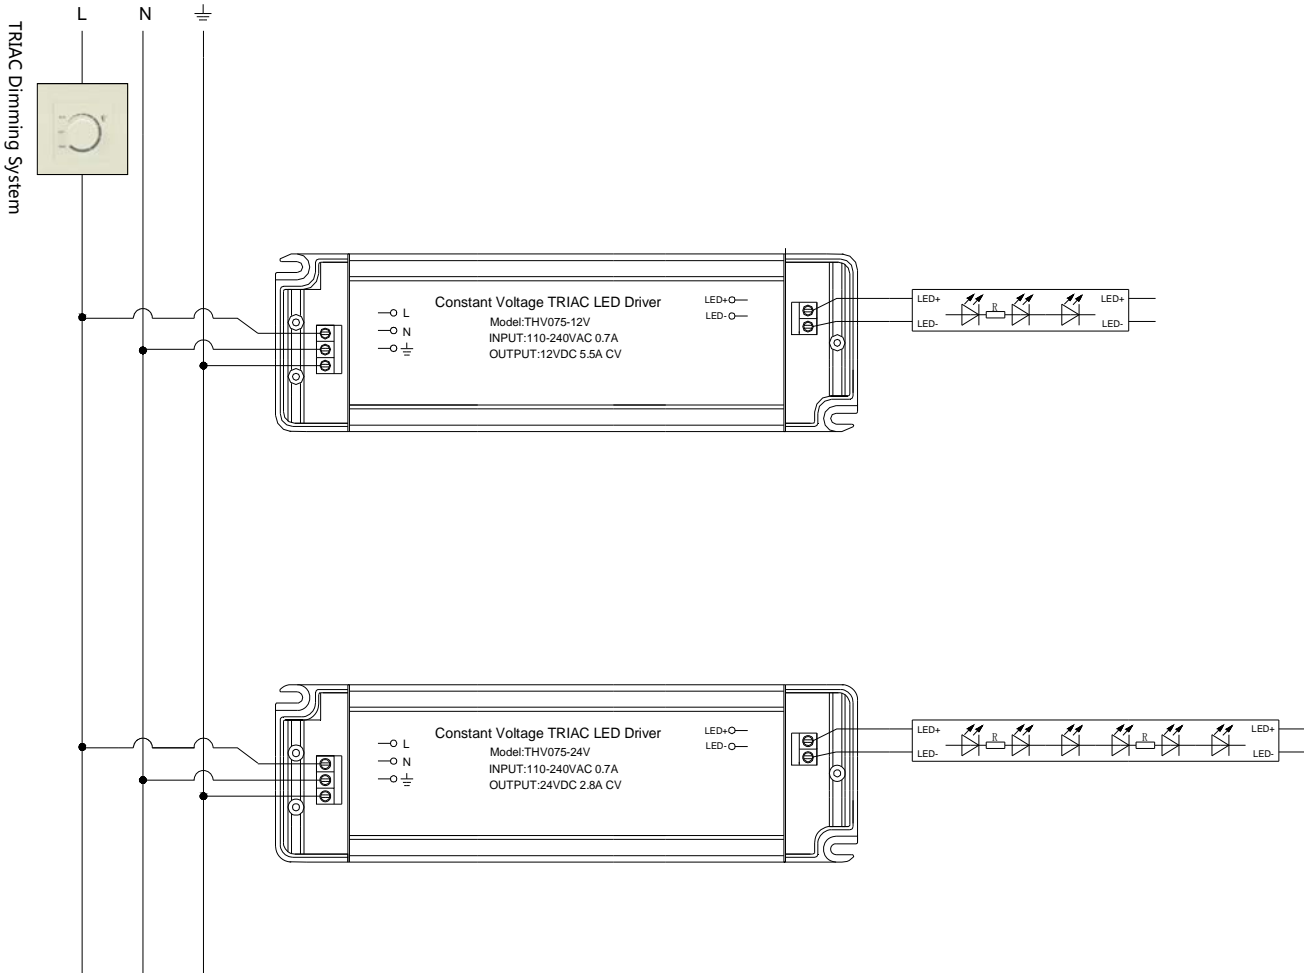

Dimension

Unit:mm

TRIAC DRIVER

Wiring diagram of TRIAC

WARNING

- Please be careful with operation. There will be dangerous when touching INPUT PORT at the circumstance.
- Pay attention to "+" , "-" when connecting, never connect the wiring without any load. Make sure the output.
- Ensure that the device is securely attached, properly mounted, and free of excessive vibration.
- Ensure that main power supply is off before installing or wiring a fixture.
